ORDER ON RECONSIDERATION

Adopted: April 12, 2010

Released: April 13, 2010

By the Deputy Chief, Broadband Division, Wireless Telecommunications Bureau:

I. INTRODUCTION

1. In this Order on Reconsideration, we dismiss as untimely a petition for reconsideration of our placement into termination pending status two industrial/business pool microwave stations in Kansas City, MO and Mission, KS.

II. BACKGROUND

2. On July 1, 2008, the Wireless Telecommunications Bureau (the Bureau) issued licenses for industrial/business pool microwave stations with call signs WQJA208 and WQJA209 (the Stations) to Computers & Tele-Comm, Inc. (CTC). The deadline for constructing both stations was January 1, 2010. On October 6, 2009, the Bureau sent construction/coverage reminder letters to CTC. On February 17, 2010, license auto-termination letters were sent and the Stations entered termination pending status. Accordingly, on the same day, the Bureau provided public notice of the pending license terminations. On March 24, 2010, the Bureau received a petition for reconsideration from CTC.

3 Construct/Coverage Reminder, Ref No. 4911481 (Oct. 6, 2009).

4 Auto Termination letters, Ref. Nos. 4948120, 4948121 (Feb. 17, 2010).

5 When a licensee fails to file a notification that it has completed construction by an applicable buildout deadline, the license, location, or frequency is placed in "termination pending" status. For a license, location, or frequency in that status, the Bureau presumes that the licensee did not meet buildout requirement. If the licensee does not file a petition for reconsideration within 30 days after public notice of the termination pending status demonstrating that it met that buildout requirement, the status of the license, location, or frequency is changed to "terminated" as of the buildout deadline. ### III. DISCUSSION

3. Section 405(a) of the Communications Act, as implemented by Section 1.106(f) of the Commission's Rules, requires that a petition for reconsideration be filed within thirty days from the date of public notice of Commission action.<sup>8</sup> Computation of the thirty-day period is determined in accordance with Section 1.4 of the Commission's Rules.<sup>9</sup> Since public notice of the impending license terminations was given on February 17, 2010, pursuant to Section 1.4(b)(4) of the Commission's Rules, the first day to be counted in computing the thirty-day period was February 18, 2010. The last day for filing a petition for reconsideration was March 19, 2010.

4. We received CTC's Petition on March 24, 2010. Therefore, we find that the Petition was filed late. The United States Court of Appeals for the District of Columbia Circuit has consistently held that the Commission is without authority to extend or waive the statutory thirty-day filing period for filing petitions for reconsideration specified in Section 405(a) of the Communications Act,<sup>10</sup> except where "extraordinary circumstances indicate that justice would thus be served."<sup>11</sup> We note the filing requirement of Section 405(a) of the Act applies even if the petition for reconsideration is filed only one day late.<sup>12</sup> We do not believe that CTC has shown such extraordinary circumstances to be present here. Indeed, CTC has failed to acknowledge that it did not file in a timely manner. Accordingly, we dismiss the Petition as late-filed.

5. If CTC wishes to continue operating the terminated facilities, it must file a completed FCC Form 601, in accordance with all applicable Commission Rules, to reauthorize the facilities. In the interim, CTC should file a request for Special Temporary Authority, in accordance with Section 1.931 of the Commission's Rules, if it wishes to continue operating the facilities.
